April 5, 2006 Commission Meeting

2007 Comprehensive Land Use Plan: Presentation of Preliminary Drafts

On April 5th, we will continue our work on the Comprehensive Plan. We are pleased to present two more preliminary drafts of sections related to natural resources – Geologic Resources and Wetland Resources. We will guide you through each of these drafts, highlighting differences from the 1997 versions of these sections, and discussing the draft goals and policies related to these topics.

Changes to the Geologic Resources section are not extensive and the draft shows all revisions. Because changes to the Wetland Resources section are more extensive, we have provided two copies - one which shows all revisions and one which is clean for easier reading.

We look forward to seeing you and continuing our work on the new Plan.

CE/JP
